Microban® Stamps

Stamps with antibacterial protection

In daily life stamps are handled by many different people – this means multiple hand impressions and the transfer of bacteria. Built-in during the point of manufacture, Microban® antibacterial protection inhibits the growth of harmful bacteria.

Imprints Classic Line see pages 23-25.
Imprints Expert Line see pages 17-21

The main touch points have Microban® antibacterial protection built-in

Left:
Unprotected surface

Right:
Surface protected with Microban

COLOP are utilising Microban 3G Silver™ technology. Built-in during manufacture, it will not wash off or wear away

COLOP regularly participate in the Microban Quality Assurance programme

Microban is built in as standard in Expert and Classic lines and also available in Printer line models

Green Stamps

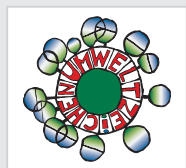

Green Line

We take responsibility

The self-inking stamp range predominantly made from sustainable and recycled material. A minimum of between 75 % and 80 % recycled plastic is used.

Green Line Stamps are CO2 neutral - unavoidable CO2 emissions are compensated by means of investment into climate protection projects (GOLD STANDARD Projects), based on the system boundary “cradle to gate”.

Evaluated according to ISO 14044, verified by Denkstatt, an independent institute

The Green Line range was audited during the ISO 14001 accreditation process

The wood used for the Classic Line handles is a renewable and climate neutral raw material.

The Classic Green Line handles are FSC® certified (Forest Stewardship Council®)

The Austrian Eco-Label is awarded by the Republic of Austria as represented by the Federal Ministry of Environment

The Green Line packaging is made from 100% recycled cardboard

Green Stamps

Liquid Wood

More nature for your office

This innovative and pioneering material is based on LIGNIN – a natural spin-off from the paper industry. Liquid wood is sustainable because predominantly wood and not petroleum serves as its basic material.

Because the source material wood is CO2-neutral, Liquid Wood also has a very small CO2 footprint.

Printer Liquid Wood are CO2 neutral - based on the system boundary "cradle to gate"

The Austrian Eco-Label is awarded by the Republic of Austria as represented by the Federal Ministry of Environment

Lignin is a natural polymer!

Liquid Wood is 100% biodegradable.

Lignin is a by-product of the paper production

Bioplastic with best product characteristics

The wood used in Liquid Wood originates exclusively from sustainable, certified forestry (PEFC-certified)
